# The Height Safety Specialist

## Corporate Brochure

# The Height Safety Specialist

Akrobat has been Founded in Singapore in 2005 by Philippe Girardot, an Engineer from "Ecole Centrale" of Paris. The company has grown to become a leading innovative specialist in fall protection and abseiling systems. With over 500 references from all sectors of activity - Transport (MRT), factories, shipyard, construction, aeronautics... - we are strongly involved in all landmark projects in Singapore such as Sentosa Resort World, Fusionopolis or Marina Bay Sands...

We have also designed and installed our fall protection systems on some of the major projects worldwide : Jebel Ali airport in Dubai, Abu Dhabi exposition center (ADNEC), Dubai Sports complex...

Our extensive services start from the design, engineering, to the manufacturing of brackets, clamps, up to the installation. We also conduct training sessions of the customers and inspection of the fall protection systems.

As a logic expansion of our core activity and to meet an increasing demand in terms of safety and ergonomics from our customers, we have also developed a wide range of personal protective equipment against falls. The entire range of Akrobat products aims respond to your concern that is our first priority:

## FULL protection against FALL

Do not hesitate to contact us for any special request.

We propose our own full custom-made safety solutions. But, as an exclusive distributor and certified installer, we are supported by European and American leading safety manufacturers:

- ★ Alsolu
- ★ Somair
- ★ Fallprotec
- ★ Delta Plus
- ★ Neofeu
- ★ Capital Safety
- ★ S-5!
- ★ Akrobat brand

Do not hesitate to contact us for any special requests.

The pictures in this brochure illustrate our various activity fields and some prestigious projects on which we worked and/or we set up our life line systems.
